Professional Summary

Full-Stack Engineer specializing in the end-to-end development of data-centric web and mobile applications with Angular. I architect scalable back-end systems and build dynamic, high-performance front-ends that directly enhance business operations. My core expertise includes:

- **Front-End Engineering:** Developing complex applications with Angular (v19, Signals, Angular Material, ag-Grid) to boost responsiveness by 25% and user efficiency by 30%.
- **Full-Stack Development:** Building integrated systems—from employee portals and compliance apps to international tracking dashboards—that serve 1,000+ users and improve stakeholder decision-making.
- **DevOps & Deployment:** Streamlining development lifecycles by implementing CI/CD pipelines with Docker & Jenkins, resulting in faster application deployment.

Seeking a role where I can leverage my full-stack capabilities to solve complex data presentation and business logic challenges.

Technical Skills

Languages: JavaScript (ES6+), TypeScript

Frameworks & Libraries: Angular (v8–19), Angular Material, Ionic, Bootstrap, ag-Grid, Chart.js

CI/CD & DevOps: Docker, Git, Jenkins, Tortoise SVN

Testing: Playwright, Karma, Jasmine

Other: Responsive Web Design, State Management (Signals, RxJS)

Operating Systems: Windows, Linux

Professional Experience

Zensar Technologies – Software Developer

Bengaluru, India | April 2022 – Present

- Developed and deployed a **Timesheet Portal** in Angular, enabling overtime and food allowance submissions; built a **manager dashboard** with Angular Material & ag-Grid, improving **real-time tracking efficiency by 30%**.
- Delivered a **compliance data declaration app** in Angular 19, leveraging **Signals for reactive state management**, boosting app responsiveness by **25%**.
- Built an **international employee tracking system** with relocation and salary data visualization, enhancing **stakeholder decision-making and UX adoption**.
- Created a cross-platform **Ionic mobile app** used by **1,000+ employees** for onboarding & company information, supporting faster integration of new hires.
- Improved application **deployment speed** by integrating CI/CD pipelines with Docker & Jenkins.

Education

M.Tech in Computer Networking

Ramaiah Institute of Technology – Bengaluru | Oct 2018 – Dec 2020

B.Tech in Electronics and Communication

Reva University – Bengaluru | Mar 2014 – Mar 2018
